SUBJECT: JOHN WHITESIDE PARSONS

29 September 1950

March 1949, that PARSONS had been cleared for access to Secret and Top Secret contracts.

Files of the FBI contained no derogatory information identifiable with PARSONS and confidential informants of the Bureau familiar with Communist Party activities in the Los Angeles area in the 1940's have no information regarding Subject.

b. On 26 September 1950, information was received from [redacted] of the Plant Protection Office, Hughes Aircraft, Culver City, California, that PARSONS had been dismissed that date for removing Secret information from the plant. [redacted] stated that he had received information from a representative of North American Aviation, Inc., Los Angeles, who informed [redacted] that he had been contacted by a [redacted] address unknown at this time. [redacted] is reported to have told the North American representative that [redacted] PARSONS and that he had asked her to type some copies of documents for him. PARSONS was interviewed by [redacted] and admitted taking the documents for copying, which were of a highly classified nature. According to [redacted] PARSONS was going to transmit the copies to [redacted] who is believed to reside in North Hollywood, California, and to be a business consultant. [redacted] stated that [redacted] of a publication known as "Technion" sponsored by a group of "Scientific Theorists". According to [redacted] is also a representative of the Israeli Government. The Los Angeles Office of the FBI and the Security Inspector in Charge, Los Angeles Plants Unit, Air Material Command, were immediately notified.

c. 18th District OSI was advised by the Los Angeles Office of the FBI, on 27 September 1950, that PARSONS was interviewed on that date and had admitted taking the classified material from Hughes Aircraft, from which he had been discharged. The FBI further advised that Subject was co-operative and that no charge had been placed against him at that time. The Bureau will inform this office of further developments and will furnish a copy of their report, when available.

b7D It is noted that these classifications are different, in some cases, than those previously furnished by [REDACTED]

b7D [REDACTED] advised that in reviewing these reports, it is the considered opinion of the Laboratory that all this material could be downgraded to unclassified. The Jet Propulsion Laboratory has no authority to downgrade these documents, however, this authority being vested only in the U. S. Air Forces inasmuch as the research which led to their publication was sponsored by the Air Forces. [REDACTED] stated that Items 3, 4, 5 and 6 above were, according to their records, delivered to the Aerojet Engineering Corporation for specific use of engineers at that agency. It has been previously reported that PARSONS was formerly employed by Aerojet.

Mr. H. M. CLARK, Air Provost Marshal's Office, Los Angeles Air Force Field Procurement Office, 155 West Washington Boulevard, Los Angeles, advised on January 9, 1951 that a review of the reports in question by the Air Forces would have to be made by the office of the Air Provost Marshal, Air Materiel Command, Wright-Patterson Air Force Base, Dayton, Ohio.

SUBJECT: JOHN WHITESIDE PARSONS, wa.
ESPIONAGE - ISFURLORE

To have Liaison deliver reports in captioned matter to OSI and secure answers to two questions propounded by the Criminal Division.

DETAILS

As you will recall, the subject has admitted in a signed statement removal of 17 documents without authority from the Hughes Aircraft Company, Los Angeles, California, where he was formerly employed. Parsons stated he planned to use the data in preparing proposals for building an explosives plant in Israel and also for research work on rockets and other armaments in Israel. Parsons intended to turn the documents over to [REDACTED] through whom he hoped to obtain employment as a research worker in Israel.

Copies of reports have been prepared for dissemination to OSI by the Liaison Section.

This matter has been presented to the Department for an opinion and the Department has now advised that it appears there is a violation of Section 793 and possibly Section 794 of Title 18, U. S. Code, but that before a decision is rendered as to whether prosecution is warranted the Department requested we ascertain the following:

1. An expression of opinion from the appropriate source in the Department of the Air Force as to whether the documents involved "relate to the national defense."

2. Is there any objection on the part of the Department of the Air Force to having the documents in question introduced in evidence in the event of prosecution?

I revised proposal. In 1950 when I worked for H.A.C. on a proposed Rocket Propellant Loading Plant. The proposal included detailed cost breakdowns of the type which I required in my proposal to Israel. On about the 15th of September, I approached a [redacted] of Palms Verdes, California, with the request that she type up a rough draft of the material which I had collected in order that I could organize this in the form of a signed cost proposal. I selected [redacted] and had this typed by her since I had known her and her husband for a period of over five (5) years. I knew that both she and her husband had been cleared to work on classified projects after an extensive investigation and that clearance for her husband was current.

67C
Among the materials from which I asked her to type extracts there was included a rough draft of a portion of a Propellant Loading proposal at H.A.C. which had been marked "Confidential". The rough draft of the material from which I intended to prepare my proposal was partially typed by [redacted] in the period of September 16 to September 23, 1950. I understand that on September 25, this material was picked up by the F.B.I. and the matter was referred to H.A.C. It was not in any way my intention to transmit any portion of the material which had been classified to Israel or to any other unauthorized person. It was my intention to select only the cost of equipment and process from the material to include in my proposal. It was further my intention before proceeding, to submit details of the proposal to check with the State Department both in regard to the possibility of getting a passport and the advisability of proceeding with any proposed activities. I had selected [redacted] to do the typing since I knew that she and her husband in the past, that she was a highly responsible and loyal person and there was no possibility of any leak thru her or her husband to unauthorized persons. I feel that any action in allowing classified material which was the property of H.A.C. to come into the hands of a person, who however responsible, was not directly authorized to receive this material, was a serious error in judgment. It is my understanding that I removed this aforesaid Confidential material in violation of H.A.C. rules. I did not remove them with the expressed or implied permission of any person in H.A.C. My removal of this document was not known to any person in H.A.C. nor to any other person with the exception of myself. To my knowledge, [redacted] had no knowledge that Confidential material was being used in any unusual manner.

"I received no remuneration or promise of remuneration for removing this material, nor was I induced or requested to do so by any other person. I have no membership in any organization which is in any way interested or concerned in this matter or which advised or induced me to act in the manner aforesaid. I wish to emphasize again that I had no intent of violating any law or of transmitting any classified information or Company property to any unauthorized person."

"To the best of my knowledge, I do not now have in my possession, any classified material belonging to the Hughes Aircraft Company, nor any other classified material of any sort. If I should find any such classified material among my possessions, I will immediately return same to H.A.C."

"I have read the above statement consisting of two (2) pages and checked the statement therein and it is true to the best of my knowledge and belief. No threats nor promises have been made to cause me to initial the preceding pages nor to sign this statement."

They stated that the PERSONS are an odd and unusual pair in that they do not live by the commonly accepted code of married life and are both very fascinated by anything unusual or morbid such as voodooism, cults, homosexuality, and religious practices that are "different." Subject seems very much in love with his wife but she is not at all affectionate and does not appear to return his affection.

She is the dominating personality of the two and controls the activities and thinking of subject to a very considerable degree. It is the opinion [redacted] if subject were to have been in any way willfully involved in any activities of an intentional espionage nature, it would probably have been on the instigation of his wife.

The check of records of the Bureau of Vital Statistics, previously mentioned, was made on February 15, 1951 by Special Employee [REDACTED]

The Registrar of Voters of Los Angeles County, checked February 16, 1951 by the writer, revealed no record of subject or subject's wife.

For the information of the New York and Washington Field Offices, the subject in September, 1950, removed certain classified material from Hughes Aircraft Company, Culver City, California, his place of employment, for the purpose of using material from these documents in preparing a cost proposal on jet propulsion motors. He planned to submit this proposal with an application for employment through the American Technion Society for employment in the country of Israel. On termination of employment at Hughes Aircraft Company, subject was found to have in his possession certain classified material of the Guggenheim Aeronautical Laboratory, California Institute of Technology. The facts of this case were presented to the Criminal Division of the Department of Justice on December 20, 1950, and are presently under consideration.

For the assistance of the Washington Field Office, the following known information concerning MARJORIE ELIZABETH CAMERON PER OAS is set forth:

Age	About 30 to 32 years.
Height	5'5"
Weight	126 pounds
Hair	Red
Eyes	Blue
Complexion	Fair with freckles
Born	Davenport, Iowa (?)
Veterans Administration Claim Number	7002299 (?)
Present address	1200 Esplanade, Redondo Beach, California.
Former address	3416 Manhattan Avenue, Manhattan Beach, California. 3212 Highland Avenue, Manhattan Beach, California.

Reference is made to a memorandum to you in the above-captioned matter from Mr. Hennrich dated January 27, 1951, which requested the Liaison Section to deliver reports in the above-captioned matter to OSI and to exhibit at the same time to them evidence in this matter in order to determine (1) an expression of opinion from the appropriate source in the Department of the Air Force as to whether the documents involved "relate to the national defense" and (2) if there is any objection on the part of the Department of the Air Force to having the documents in question introduced in evidence in the event of prosecution.

This matter was discussed with representatives of OSI by Mr. Sanders and they have advised after checking into the matter that the contract in question is under the jurisdiction of the Army. This is to advise that the evidence has been made available to Colonel Paul J. Cramer of G-2 and he stated that he would attempt to obtain from the Army the answers to the questions propounded.

This matter will be followed with Colonel Cramer as to the developments.

Attached hereto is a copy of a confidential memorandum from the Department dated May 17, 1951, in which the Department advises that this case is being referred to the United States Attorney for the Southern District of California for his opinion relative to prosecution. You will note the Department requests we make available to the U. S. Attorney at Los Angeles, California, all information in this case developed through investigation to date in order that he might have the benefit of same in reaching a decision.

You should immediately comply with the Department's request and furnish to the U. S. Attorney at Los Angeles copies of all pertinent reports in this case and such other data as he may require to reach a decision. For your information, the Bureau has furnished the Department copies of all investigative reports prepared in this case.

In this connection, your attention is directed to the Bureau's memorandum dated May 9, 1951, to the Department, copies of which were furnished you setting forth information received by the Bureau from the Department of the Army as to the security classification of pertinent documents in this case. You should immediately prepare an investigative report, incorporating therein the information received from the Department of the Army and furnish a copy to the U. S. Attorney at Los Angeles.

The Bureau is also returning herewith the photographic copies of the 12 documents which were forwarded to the Bureau under date of January 27, 1951. These photographs have been exhibited to the Department of the Army for a recent security classification, and you have been previously advised of the Army's reply.

You should advise the Bureau promptly of the U. S. Attorney's decision in this matter.

SUBJECT: Classification of Documents

1. Reference is made to the attached letter from the Federal Bureau of Investigation dated 27 February 1951, and your verbal request of 5 March 1951, relative to the determination of the classification of certain documents and the desirability of introducing these documents as evidence.

② For your information the military security classification of the material in question is as follows:

- a. Items 1 through 6, inclusive, and items 9 and 10 are unclassified.
- b. Item 7 contains information bearing a military security classification of RESTRICTED.
- c. Items 8, 11, 12 and 13 contain information bearing a military security classification of CONFIDENTIAL.

③ The documents referred to in paragraph 2 b and c above, relate to the national defense. The Department of the Army has no objection to the use of Items 1 through 7, inclusive, and Items 9 and 10 as evidence. The information contained in Items 8, 11, 12 and 13 relates to current CONFIDENTIAL research and development and as such should not be divulged to unauthorized persons.

1. A survey of the specific documents mentioned in paragraph 1a, disclosed that decisions on military security classifications rest with the Department of the Army, Office, Chief of Ordnance, since this work at California Institute of Technology was and has been continued under the administrative direction of that Department.
2. It will be difficult to arrive at recommendations regarding military security of the documents cited under paragraph 1b, unless the details could be examined in the complete documents. These details are likewise related to Army Ordnance contracts which the Air Force has requested them to conduct.
3. It is urged that all papers be submitted to a competent technical authority in the Army Ordnance Department (e.g. Mr. James R. Youmans, Rocket Development Branch, Room 2D 370g, The Pentagon, phone Ext. 52033) who could prepare authoritative and final recommendations on present security classifications on all the documents cited.
4. It is desired to emphasize that although some of these documents may be considered "Unclassified" from the military security viewpoint, they may contain certain proprietary information which the U. S. Government is not permitted to disclose to unauthorized persons. Also, there may be questions of U. S. Patent Secrecy agreements involved in one or more process disclosures. Such possible disclosures can be decided also by the Army Ordnance Department to protect the rights of their contractors (i.e. Aerojet Engineering Corporation and Thiokol Corporation).
5. In reply to the inquiry of paragraph 2b, it is recommended that none of these documents classified for reasons of military security or proprietary security, be presented before a civil court if it is necessary that they be made a part of the open records of that court.

ReBulet 1-19-51, advising you that the facts in this case had been presented to the Criminal Division of the Department for an opinion as to prosecution.

For your information, the Department has advised that the facts indicated a possible violation of Sections 793 and 794 of Title 18, U.S. Code, but before rendering a decision as to whether prosecution would be warranted, the Department requested that steps be taken to ascertain whether the documents involved "relate to the national defense," and whether, in the event of prosecution, the Department of the Army would have any objection to these documents being introduced as evidence.

These questions were submitted to the Department of the Army, and in a confidential memorandum dated April 6, 1951, answers were furnished by Colonel Paul G. Cramer, GSC, Chief, Security Division, G-2, Department of the Army, Washington, D. C. A copy of the Army's memorandum is attached hereto for your information.

Also attached for your information is a copy of the Bureau's memorandum to the Department dated May 7, 1951, requesting that the Department advise whether, in view of the above, prosecution in this case is warranted.

When a reply is received from the Department, you will be advised.

Reference is made to my memorandum in the above captioned matter which indicates that an effort had been made to obtain the opinion of the Department of the Air Force regarding the classification as to certain documents, and as to whether or not the documents could be introduced as evidence in the event of prosecution in the above captioned matter. As indicated in the reference memorandum, the representatives of OSI advised Mr. Cancers that this was a question under the jurisdiction of the Air Force.

There is attached hereto a memorandum to the attention of Mr. Reynolds entitled, "Classification of Documents," dated April 6, 1951. It encloses a copy of the memorandum prepared for OSI by the Air Force dated February 20, 1951, as well as for the four Bureau reports which were loaned to G-2 in this matter, and the thirteen items in question.

The memorandum indicates that items 1-6, and 9 and 10 are unclassified. Item 7 is classified as "restricted," and items 8, 11, 12 and 13 are "confidential." The memorandum further indicates that there is no objection to items 1-7, and 9 and 10 being used as evidence. However, since the information in items 8, 11, 12 and 13 relates to current confidential research and development, they should not be divulged to unauthorized persons.

RECOMMENDATION:

It is recommended that this be forwarded to the espionage section for their information.

RECORDED 100 65-59589-28

Reference is made to your memorandum in captioned matter dated January 18, 1951, your reference JM:CM:vb, wherein you advised that the facts indicated a possible violation of Sections 793 and 794, Title 18, U.S. Code. However, before rendering a decision as to whether prosecution is warranted, you requested that steps be taken to determine whether the documents involved in this case "relate to the national defense" and whether, in the event of prosecution, the Department of the Army would have any objection to these documents being introduced as evidence.

As you will recall, the subject admitted that on September 15, 1950, while he was employed at the Hughes Aircraft Company, Culver City, California, he removed from that plant, without authority, a total of 13 documents pertaining to jet propulsion motors and rocket propellents. These documents are described by number in the report of SA [redacted] Los Angeles, California, dated November 2, 1950, a copy of which has been previously furnished you.

The questions propounded by you have been referred to the Department of the Army, and in a confidential memorandum to this Bureau dated April 6, 1951, answers were furnished by Colonel Paul C. Cramer, JSC, Chief, Security Division, Office of the Assistant Chief of Staff, G-2, Department of the Army, Washington, D. C. Pertinent portions of the Army's memorandum are quoted as follows:

"For your information the military security classification of the material in question is as follows:

(a) Items 1 through 6, inclusive, and items 9 and 10 are unclassified.

(b) Item 7 contains information bearing a military security classification of RESTRICTED.

(c) Items 8, 11, 12 and 13 contain information bearing a military security classification of CONFIDENTIAL.

65-59589

"The documents referred to in paragraphs 2 b and c above, relate to the national defense. The Department of the Army has no objection to the use of Items 1 through 7, inclusive, and Items 9 and 10 as evidence. The information contained in Items 8, 11, 12 and 13 relates to current CONFIDENTIAL research and development and as such should not be divulged to unauthorized persons."

The numbered items refer to the 13 documents as enumerated and described in the above-mentioned Los Angeles report dated November 2, 1950.

As your records will reflect, since the date of your referenced memorandum, four FBI investigative reports in this matter have been forwarded to you, dated as follows: January 20, 1951, at Los Angeles; February 24, 1951, at Cincinnati; March 8, 1951, at Los Angeles, and March 21, 1951, at San Diego. In addition, there is enclosed herewith one copy of each of the following investigative reports concerning this matter: Report of SA [REDACTED] Los Angeles, dated April 21, 1951, and report of SA [REDACTED] Washington, D. C., dated April 26, 1951.

It is requested that you advise, after reviewing these reports and the above information from the Department of the Army, whether prosecution in this case is warranted.

PURPOSE:

To recommend that instant case be placed in a closed status.

DETAILS:

As you will recall, this investigation was based on information furnished by a representative of Hughes Aircraft Company, Culver City, California, who ascertained that subject, an employee of that corporation, had removed certain classified documents pertaining to jet-propulsion motors and rocket propellants from the files of that company without authorization on September 18, 1950. He subsequently turned these documents over to [REDACTED] whose husband was employed by Hughes Aircraft Company, who in turn reported the matter to that company. Subject had asked [REDACTED] to prepare typewritten copies of these documents and, in a signed statement, readily admitted to agents of the Los Angeles Office that he had removed these documents without authority and planned to extract certain information from them as an aid in computing the cost for a proposed factory to be established in Israel for the manufacture of jet-propulsion motors.

He was preparing this cost estimate at the suggestion of [REDACTED] the Southern California Chapter of the American Technion Society. This society, according to the October 21, 1949, issue of the B'Nai B'Rith Messenger, is composed of businessmen, technologists and scientists and is the American body designated by the Israeli Government and industry to provide United States technical know-how for the benefit of Israel. Investigation has disclosed that Parsons was interested in securing employment in Israel by reason of his background in pyrotechnics and propellants for jet propulsion.

Of the 13 items removed from the file by Parsons, 8 were found to be unclassified, one carried the security classification of restricted and 4 carried the security classification of confidential.

G-2 advised that the item classified as restricted and the unclassified items could be used as evidence in a trial, however, the items classified as confidential related to current research and development and, as such, G-2 advised that they should not be divulged to unauthorized persons. This information was presented to the Department in memorandum dated May 9, 1951, with a request that the Department advise whether prosecution in this case was warranted. The Department by memorandum dated May 17, 1951, advised the case was being referred to the U. S. Attorney at Los Angeles and requested that pertinent reports be submitted to him.

Assistant United States Attorney Amos D. McEachon, Los Angeles, California, advised that office that he declined prosecution due to lack of sufficient evidence of intent or reason to believe that the information obtained by subject was to be used to injure the United States or to the advantage of a foreign nation. McEachon directed that the evidence obtained during the investigation should be returned to its proper owners.

A review of the Bureau indices fails to reveal any new information concerning subject since the institution of this investigation.

RECOMMENDATION:

In view of the fact that the U. S. Attorney for the Southern District of California has declined prosecution, it is recommended this investigation be closed.

Pertinent information has been disseminated to Records Administrative Branch, State Department, CIA, OSI, and G-2, *ONI*.

INDUSTRIAL EMPLOYMENT REVIEW BOARD
WASHINGTON, D.C.

MEMO

9 January 1952

Dear Mr. Parsons:

Reference is made to the decision of the Industrial Employment Review Board 7 March 1949, in which you were granted access to military information and/or material classified up to and including Top Secret.

In view of derogatory matter contained in investigative reports submitted by the Department of the Air Force under date of 30 October 1951, the Industrial Employment Review Board, in accordance with the provisions of its Charter, Criteria and Procedures, copies of which are inclosed herewith, has reconsidered your case on its own motion.

The Board has decided as of 7 January 1952 to revoke the clearance granted you through Top Secret on 7 March 1949, and to withdraw access by you to Department of Defense classified information and/or material.

The grounds for withdrawal of clearance are as follows:

That you do not possess the integrity, discretion and responsibility essential to the security of classified military information in that it has been reported that on or about 15 September 1950 you knowingly and wilfully and without proper authority removed and applied to your own use and benefit documents and papers containing classified military information, from Hughes Aircraft Company, Culver City, California, your place of employment, property of the said Company, and that you delivered this classified material to persons not duly authorized to receive it.

The foregoing and all the evidence in the case file, when considered with the duties and responsibilities of any position in which you may be engaged with Department of Defense classified contract work, indicate that you might voluntarily or involuntarily act against the security interest of the United States and constitute a danger to the national security.
